

DOGGER BANK D WIND FARM

PUBLIC CONSULTATION

10 SEPTEMBER – 22 OCTOBER 2024

Dogger Bank D is a new proposed offshore wind farm that will connect to the UK power grid in East Riding of Yorkshire. It is a potential fourth phase of the Dogger Bank Wind Farm, the world's largest offshore wind farm.

Our proposals detail where we've identified a location near Skipsea as the landfall for where the electricity generated from the wind turbines could be brought ashore. From there, we have broad corridors where underground cables could be routed across the East Riding to bring the electricity to a converter station near to a new substation at Birkhill Wood which is being developed by National Grid.

Find out more at our public consultation events or attend our Q&A webinar.

TUESDAY
17
SEPTEMBER

Hornsea Floral Hall
Esplanade, Hornsea, HU18 1NQ

10am to 2pm
